Workforce Info

Saint Paul

St. Paul is a second class city located on the southern tip of St. Paul Island, the largest of five islands in the Pribilofs. It lies about 45 miles north of St. George Island. Saint Paul is part of the Aleutians West Census Area.

- ♦ The estimated population for 2008 was 450, a loss of about 82 since the 2000 Census.
- ♦ About 72 percent of the resident population 16+ years old worked in 2008.
- ♦ Local Government was the main industry in 2008, employing 45 percent of the area's workers.
- ♦ More workers were employed as Meat, Poultry, and Fish Cutters and Trimmers than any other occupation.

Please note: There is an important distinction between the local/regional employment data and our "standard" employment series. Most of these data reflect totals for area residents only. Total worker counts may be lower than expected in areas with a large number of nonresident workers. The Alaska Permanent Fund dividend file is used to determine the worker's geographic residence. Only Alaska residents (as defined by PFD application) are included in these totals. Also note that federal employees, the military, and the self-employed are not included in these data.
